Description

SCS - the Safety Cutting System made by EBA provides numerous safety features: hinged, transparent safety guard on the front table (locks automatically while cutting); transparent safety cover on the rear table; safety catch (locks blade lever in upper position); safe and convenient blade change from the front without removing machine covers; blade changing device with covered cutting edge; blade depth adjustment from the outside of the machine; cutting stick can be turned or replaced easily from the outside of the machine. Cuts up to 500 sheets of paper (70 g/m²) or bound brochures up to 40 mm. Blade made of German high quality steel. Solid steel blade carrier. Adjustable blade guides made of hardened steel. Patented fast flick action clamp. Side lay with measuring scale (mm/inches). Spindle guided back-gauge with hand crank. Fine adjustment of measurement with calibrated scale on the back-gauge hand crank. Solid all metal construction. Designed as table top machine, a stand is available as an option (at an extra cost)
